

## Special Considerations for Final Exams

1. If a student has been approved a special consideration for a final exam, the only academic remedy available is for the student to sit a remedial final exam.
2. Remedial final exams are not available outside the special consideration framework.
3. If at the time of the remedial final exam your special consideration application has not yet been decided, you are asked to sit the remedial final exam anyway. The grade earned in the remedial final exam will only be considered for your final course grade if the special consideration is actually approved. If it is declined, your final grade will be based on your grades achieved up until and including the final exam (which will count as zero marks if you did not attend it).
4. If you sit both the original exam and the remedial final exam (and your special consideration application is approved), the better of the two exam marks will be used to determine your final grade.
5. Please contact the course coordinator at the same time you apply for special consideration so that you are included in arrangements for sitting a remedial final exam. The course coordinator will contact all students directly or via Learn with details of the remedial final exam.
6. The remedial final exam will take place on campus approximately one to three weeks after the final exam period ends. Please keep this in mind when planning holidays or other activities after the final exam period.
